

ON THE BRINK

Workshop awareness knowledge management

Characteristics of the workshop

The objective of this interactive workshop is to inform the participant on knowledge management, the benefits of it, which conditions are of significance for success, and which knowledge management functionality is most common.

The workshop, which takes a half-day, consists of three parts.

Introduction knowledge management:

What is knowledge management, which advantages does it produce, and possible examples of applications of knowledge management.

Knowledge management game:

In this interactive and competitive game, teams create solutions for knowledge management issues. These solutions are reviewed and rewarded (or not) by another team.

Brainstorm about implementing knowledge management:

In this session participants are stimulated to generate possibilities for implementing knowledge management solutions in their way of work.
